

# Selecting a Career or College Major

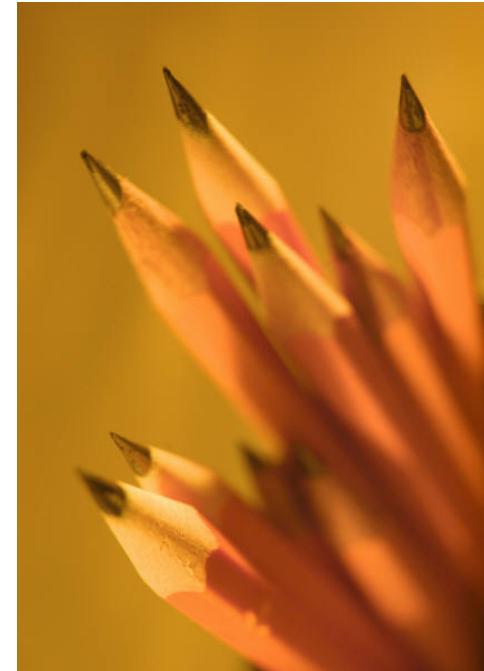

A Tutorial for College of Marin Students

# 3 Easy Steps to choose a career or major

# Self Assessment

Self-assessment is the first step in choosing careers or majors that might be a good fit for you.

A comprehensive career assessment will look at three specific areas:

- Your **Interests** (what you enjoy doing)
- Your **Skills** (what you are capable of doing)
- Your **Values** (what workplace qualities are most important to you)

# Career Interest Inventory

A **Career Interests Inventory** will help you identify patterns in things that you enjoy doing or that you think you would enjoy doing. Interest inventories do not evaluate your skill level for doing these activities, just your interest level.

## *Career interests can include:*

- Building things
- Researching or problem solving
- Writing, composing or performing
- Counseling/guiding/teaching
- Organizing information

# Skills Assessment

A **skills assessment** will identify what you are good at doing. Skills can be developed through either formal training or education, as well as through everyday living.

Skills fall into two general categories:

- **Technical skills**- these are skills that you generally learn through school or formal education such as how to graphically design a brochure, or write computer code, or how to cut granite.
- **Soft Skills**-these are skills that are mostly learned through everyday life. They include good listening skills, critical thinking skills, punctuality, etc.

# Values Assessment

A **Career Values Assessment** will identify motivating factors for you in the workplace and important personal qualities of a workplace. The more aligned your work environment is to your values, the more successful and satisfied you will be in a particular career.

Workplace Values can include:

- Achievement
- Independence
- Recognition
- Relationships
- Working conditions

# Ready, Set, Assess

Now that you know what three assessments (interests, skills, and values) comprise a complete career assessment battery, you are ready to go!

- Log onto the Kuder to get a complete assessment of your interests, skills, and values

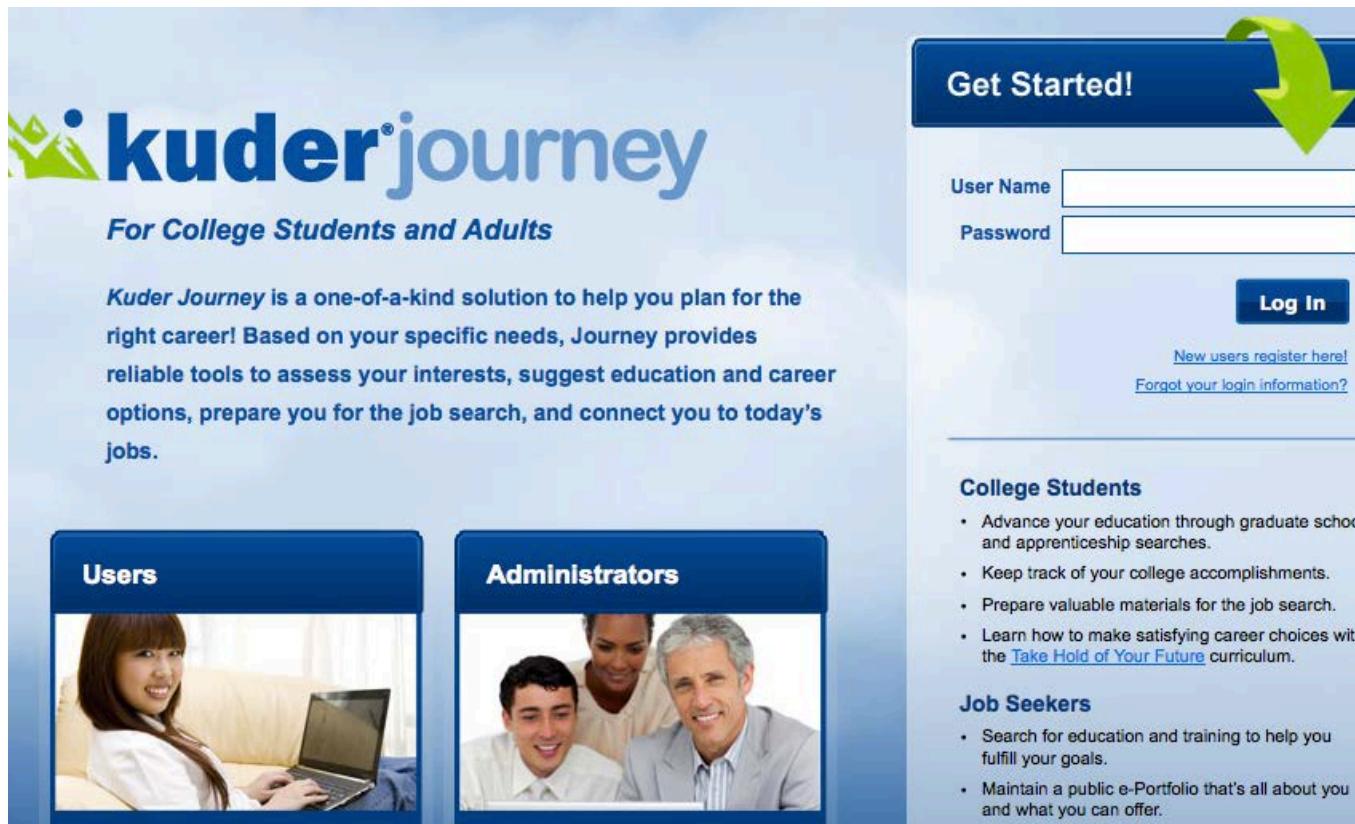

<http://www.kuderjourney.com/>

(College of Marin students get an activation code from the Career and Transfer Center)

# Start the Kuder Journey

- Contact the [Career and Transfer Center](#) for an activation code

The image shows the Kuder Journey website. At the top left is the logo 'kuder®journey' with a green mountain icon. Below it is the tagline 'For College Students and Adults'. A central text block describes the service as a one-of-a-kind solution for career planning, mentioning assessments, education options, job search preparation, and connecting to today's jobs. At the bottom, two sections are shown: 'Users' (a woman using a laptop) and 'Administrators' (a group of three people). To the right is a 'Get Started!' login page with fields for 'User Name' and 'Password', a 'Log In' button, and links for new user registration and password recovery. Below the login are sections for 'College Students' (with a list of benefits) and 'Job Seekers' (with a list of benefits).

**kuder®journey**  
For College Students and Adults

Kuder Journey is a one-of-a-kind solution to help you plan for the right career! Based on your specific needs, Journey provides reliable tools to assess your interests, suggest education and career options, prepare you for the job search, and connect you to today's jobs.

**Users**

[New users register here!](#)  
[Forgot your login information?](#)

---

**College Students**

- Advance your education through graduate school and apprenticeship searches.
- Keep track of your college accomplishments.
- Prepare valuable materials for the job search.
- Learn how to make satisfying career choices with the [Take Hold of Your Future](#) curriculum.

**Job Seekers**

- Search for education and training to help you fulfill your goals.
- Maintain a public e-Portfolio that's all about you and what you can offer.

# Explore the Career Clusters

Completing the interest, skills, and values assessment on the Kuder will provide you information about Career Clusters that may be a good fit for you. Career clusters are groups of similar occupations and industries. There are 16 career clusters developed by the U.S. Department of Education. By exploring these Career Clusters you can identify potential college majors and/or careers.

# Career Clusters

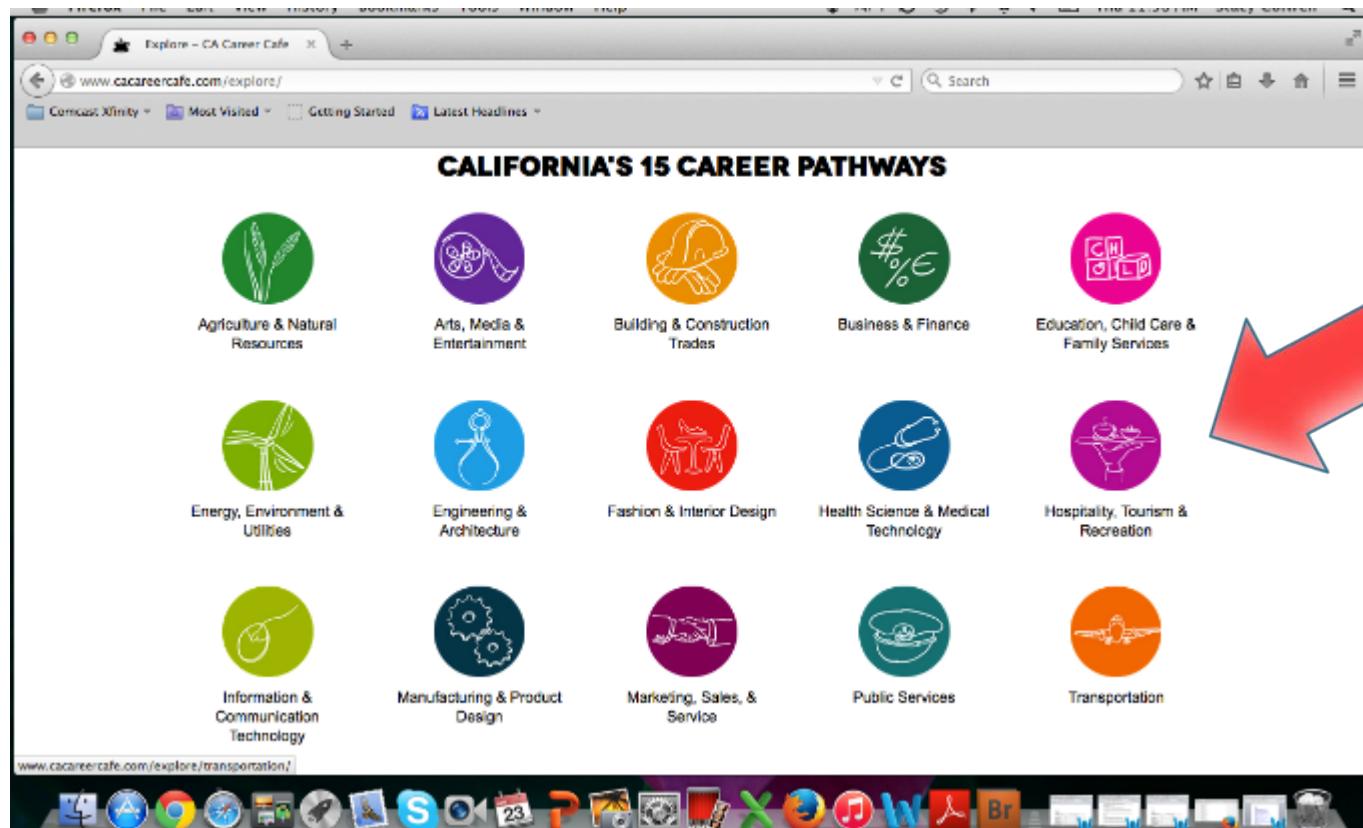

There are several good websites to explore Career Clusters, but start with ***California Career Café***, a site designed especially for California Community College students.

<http://www.cacareercafe.com/explore/>

- **View** the career video for each of your identified career clusters
  - **Read** about traits of the career cluster and think about if that sounds like you
  - **Research** professional associations
- ✓ If you enjoy watching career videos check out this site for more detailed videos within each career cluster

<http://www.careeronestop.org/Videos/CareerandClusterVideos/career-and-cluster-videos.aspx>

# Exploring Career Pathways on Career Café

The screenshot shows a web browser window titled 'Explore - CA Career Café' displaying 'CALIFORNIA'S 15 CAREER PATHWAYS'. The pathways are arranged in a 4x4 grid with one empty slot. Each pathway has a circular icon and a label:

- Agriculture & Natural Resources
- Arts, Media & Entertainment
- Building & Construction Trades
- Business & Finance
- Education, Child Care & Family Services
- Energy, Environment & Utilities
- Engineering & Architecture
- Fashion & Interior Design
- Health Science & Medical Technology
- Hospitality, Tourism & Recreation
- Information & Communication Technology
- Manufacturing & Product Design
- Marketing, Sales, & Service
- Public Services
- Transportation

A large red arrow points from the text 'Choose one of the career pathways to explore' towards the 'Education, Child Care & Family Services' pathway.

# Dig a Little Deeper

Log onto **My Next Move** and browse careers by industry  
<http://www.mynextmove.org/>

- Choose specific careers within the cluster to explore
- Pay attention to the education required and job outlook to get a better idea of the opportunities available in the field within your state, as well as, the educational level you will need to be prepared to do that job.
- For those careers that most interest you click on the link at the bottom of the page to get you to the **O\*Net site** which will provide you even more detailed information.

## What do you want to do for a living?

1. Choose "Browse careers by industry"

**"I want to be a ..."**

**Search careers with key words.**

Describe your dream career in a few words:

Examples: doctor, build houses

**Search** 

**"I'll know it when I see it."**

**Browse careers by industry.**

There are over 900 career options for you to look at. Find yours in one of these industries:

Administration & Support Services 

**Browse** 

**"I'm not really sure."**

**Tell us what you like to do.**

Answer questions about the type of work you might enjoy. We'll suggest careers that match your interests and training.

**Start** 

1. Pick an industry From the drop down bar and then click on a specific career

Still not sure? Check out careers in these groups:

Are you a veteran looking for work?  
[My Next Move for Veterans](#) helps you find a civilian career similar to your military job.

MUERDO AL DÍA

## Acute Care Nurses

Also called: Clinical Nurse Educator, Nurse Manager, Nursing Director, Staff Nurse

### What they do:

Provide advanced nursing care for patients with acute conditions such as heart attacks, respiratory distress syndrome, or shock. May care for pre- and post-operative patients or perform advanced, invasive diagnostic or therapeutic procedures.

### On the job, you would:

- Perform emergency medical procedures, such as basic cardiac life support (BLS), advanced cardiac life support (ACLS), and other condition stabilizing interventions.
- Manage patients' pain relief and sedation by providing pharmacologic and non-pharmacologic interventions, monitoring patients' responses, and changing care plans accordingly.
- Document data related to patients' care including assessment results, interventions, medications, patient responses, or treatment changes.

## KNOWLEDGE

### Health

- medicine and dentistry
- therapy and counseling

### Business

- customer service

### Arts and Humanities

- English language

### Education and Training

- teaching and course design

## SKILLS

### Basic Skills

- keeping track of how well people and/or groups are doing in order to make improvements
- listening to others, not interrupting, and asking good questions

### Problem Solving

- noticing a problem and figuring out the best way to solve it

### Social

- looking for ways to help people
- understanding people's reactions

## ABILITIES

### Verbal

- listen and understand what people say
- communicate by speaking

### Ideas and Logic

- notice when problems happen
- make general rules or come up with answers from lots of detailed information

### Attention

- pay attention to something without being distracted
- do two or more things at the same time

Does the required knowledge, skills, and abilities seem like a good fit for you?

## PERSONALITY

People interested in this work like activities that include **helping people, teaching, and talking**.

They do well at jobs that need:

- Integrity
- Stress Tolerance
- Attention to Detail
- Dependability
- Adaptability/Flexibility
- Concern for Others

## TECHNOLOGY

You might use software like this on the job:

### Medical software

- eClinicalWorks software
- GE Healthcare Centricity EMR

## EDUCATION

**associate's degree or bachelor's degree**  
usually needed

Get started on your career:

## Further Investigation

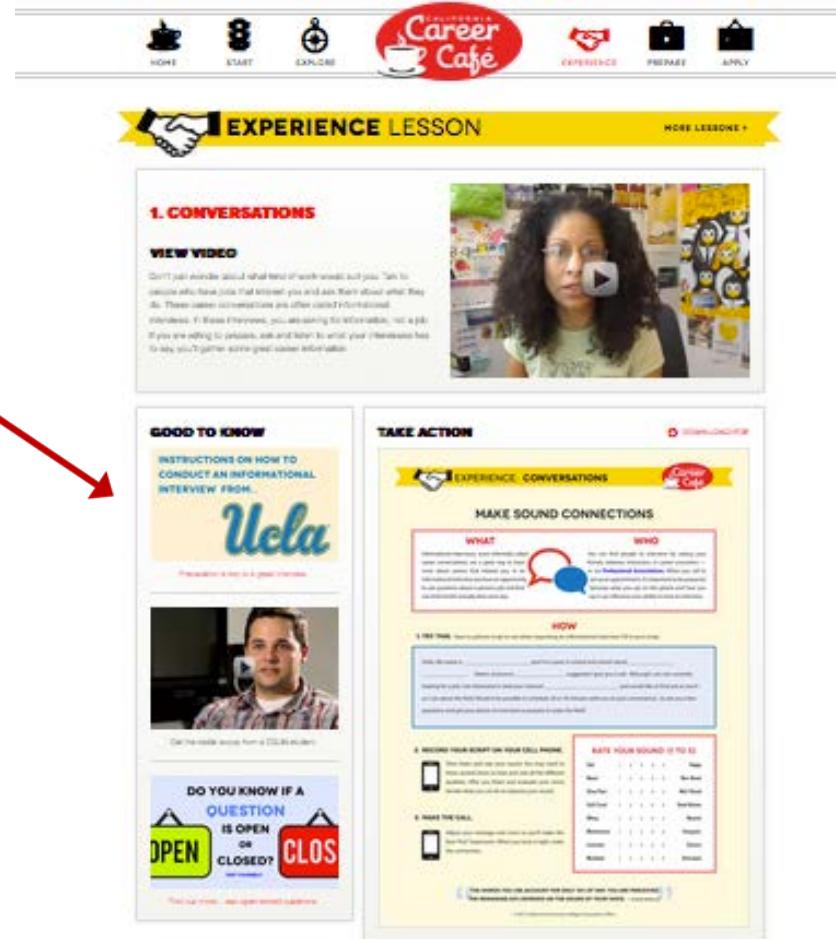

When you have decided on some potential careers, it is a good idea to contact people in those professions to request an ***informational interview*** to help you gather additional information about that field.

**California Career Café** provides information about setting up an informational interview and creating questions to ask professionals during an informational interview.

<http://www.cacareercafe.com/experience/conversations/>

# Informational Interview

Lots of useful information on requesting informational interviews, questions to ask during an interview, and more!

The screenshot shows the California Career Cafe website. At the top, there are navigation icons for HOME, START, EXPLORE, CAREER CAFE (highlighted in red), PREPARE, and APPLY. Below this is a banner for an 'EXPERIENCE LESSON' featuring a handshake icon and the text 'EXPERIENCE LESSON' and 'MORE LESSONS +'. The main content area is divided into two sections: '1. CONVERSATIONS' (with a 'VIEW VIDEO' button) and 'TAKE ACTION'. The 'VIEW VIDEO' section shows a video of a woman with curly hair and glasses speaking. The 'TAKE ACTION' section contains a 'GOOD TO KNOW' box with 'INSTRUCTIONS ON HOW TO CONDUCT AN INFORMATIONAL INTERVIEW FROM... UCLA' and a 'DO YOU KNOW IF A QUESTION IS OPEN OR CLOSED?' section. A red arrow points from the 'DO YOU KNOW...' section to the UCLA script.

Script to help you request an informational interview

# I have decided I want to be a...

Congratulations! You have decided on some potential careers, **now what?**

Look for college majors that will prepare you for a career in that field.

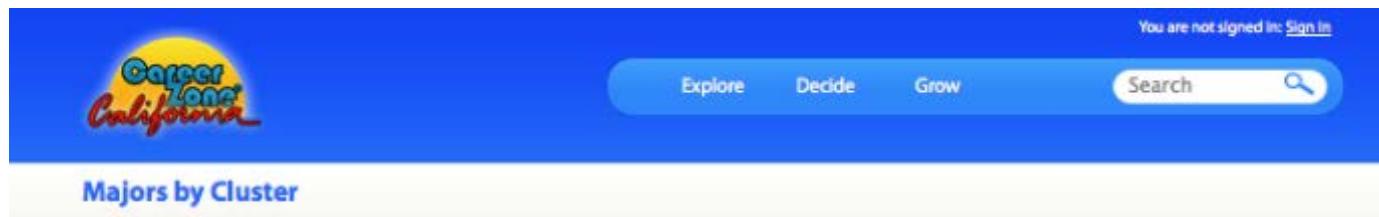

# Researching College Majors

A good place to start your research is **California Career Zone**.

<https://www.cacareerzone.org/majors/clusters>

1. Choose a career cluster (these are slightly different than the ones on the previous sites)
  2. Choose a major to explore
  3. Each major page will provide a short summary of the major, potential jobs associated with that major, similar majors, and a graduation summary for that major
- ◆ You can also use this site to search for Universities that have these majors by clicking on the button on the top right hand side labeled "Find Institutions Offering..."

## Civil Engineering

Choosing to be a Civil engineering major is for students who want a professional engineering discipline that deals with the design, Civil and maintenance of the physical and naturally built environment, including works such as bridges, roads, canals, dams and buildings. Civil engineering is the oldest engineering discipline after military engineering. Civil Engineering majors compete in many college level competitions, the well known is "Concrete Canoe". Top Civil Engineering Schools seek students who are able to co-op (work/study) during their time in college.

### California State University, Monterey Bay Global Studies B.A.

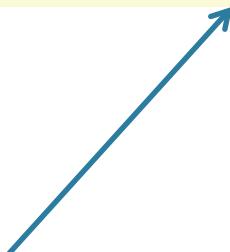

CSUMB includes a strong commitment to global education in its Vision Statement. The Global STUDIES DEPARTMENT in keeping with the mission of CSUMB promotes understanding and appreciation of the peoples, natural environment, cultures, economies, and diversity of the world. The BA degree in Global Studies contributes directly to the development of competent cross-cultural citizenship in a pluralistic and global society. The program meets the needs of the State of California by providing students an education that prepares them for professional roles the 21st Century. Through intensive, diverse studies the Global Studies Department enables students to engage in the critical analysis of world affairs and gain knowledge and methods for implementing theory into practice.

## University Majors

### California State University, Monterey Bay Global Studies B.A.

CSUMB includes a strong commitment to global education in its Vision Statement. The Global STUDIES DEPARTMENT in keeping with the mission of CSUMB promotes understanding and appreciation of the peoples, natural environment, cultures, economies, and diversity of the world. The BA degree in Global Studies contributes directly to the development of competent cross-cultural citizenship in a pluralistic and global society. The program meets the needs of the State of California by providing students an education that prepares them for professional roles the 21st Century. Through intensive, diverse studies the Global Studies Department enables students to engage in the critical analysis of world affairs and gain knowledge and methods for implementing theory into practice.
