# MATH

Math courses will be determined by your major. See a counselor for advice. All **C** courses are 0.5 unit, non-transferable support courses linked with a parent math course. For example, a student who places into MATH 115C must also enroll in MATH 115.

# ESL

For ESL Placement, select one or more of these options:

## ESL Guided Self-Placement Tool

You need your M00# to use the tool.

## Assessment Test

This will be an option once we return to face-to-face instruction.

## Talk with a Counselor and/or ESL Instructor

Make a counseling appointment or contact the ESL office for an ESL instructor.

# GOOD NEWS

With the AB 705 legislation, students are not required to take a test to enroll in math, English, or ESL classes at College of Marin. California Community Colleges use high school GPA and guided self-placement to help students select their math, English, and ESL classes (students taking ESL classes still have the option to take an ESL assessment test for placement).

This brochure is designed to help you understand the placement process and your math, English, and ESL class options. However, the best way to select the right class is to see a counselor. A counselor will help you determine the best choice for your individualized educational goal.
